CHAPTER –X

33. (A). Holding of International Competitions in Kerala

i. The Council always welcomes the conduct of more competitions in the State. It is noticed that the conduct of international competitions in the State is very few and far between comparing to other States particularly Northern States. But ours is the State which is producing outstanding sportspersons for the country. Considering this aspect Council desires to assist the State Sports Associations/National Federations in the conduct of various International Competitions in the State, which the Council feels that it will go a long way in popularising that particular discipline
in the State and will help to educate our Players and Officials with the latest training/competition techniques and our sports administrators can update their knowledge in the field with the conduct of an International Competition.

ii. The Standing Committee will consider providing technical/financial assistance to State Sports Association affiliated to the Council in the conduct of World Championships, South Asian Championships, Asian Championships, Asia-Pacific Championships etc. Standing Committee may consider the quantum of financial assistance based on the nature of championship, its importance and its profile in our State.

iii. The State Association should submit the request for assistance with the details of Championship and budget estimate prepared by the National Federation and allotment letter of Championship to India/Kerala issued by the concerned World/Asian authority.

iv. Once the Standing Committee decides to assist the conduct of the Championship in Kerala, it will be the responsibility of Kerala State Sports Council also to ensure that the International Competition is conducted in the State with its full international stature and the quality of the Championship is not compromised. The National Federation/State Association should ensure that the office bearers and members of Kerala State Sports Council and officials of Sports Ministry, Government of Kerala is given due representation in the Organising Committee constituted for the conduct of the said international event since it is the responsibility of each and every person to ensure that the international competition is conducted within the State in a befitting manner and to the entire satisfaction of the World/Asian authority/National Federation.

v. However, it is equally important to ensure that these events are properly and professionally managed, so that our State develops a credible image abroad as a reliable destination to host and hold such competitions.

vi. From the stage of bidding, up to the actual conduct of the competition itself, it is important for all the agencies involved to work in the closest possible coordination, especially considering the large number of clearances and approvals required both at the State and Central levels.
vii. On being informed of a State Sports Association’s interest in hosting any major International Championships in Kerala, a Steering Committee is to be constituted by the Standing Committee in each case to coordinate all follow-up action to be taken.

(B). **Holding of National Competitions in Kerala**

i. The Council recognises the importance of attracting National Competitions to Kerala State. The impact of such events on the publicity, popularity and general development of sport will be considerable and far outweighs any direct expenditure involved. However, it is equally important to ensure that these events are properly and professionally managed, so that our State develops a credible image all over India as a reliable avenue to host and hold such competitions. From the stage of bidding, up to the actual conduct of the competition itself, it is important for all the agencies involved to work in the closest possible co-ordination, especially considering the large number of arrangements required both at the private and public levels. On being informed of the interest of an Association in hosting the competitions, an Organising Committee is to be constituted by the State Sports Association in each case to co-ordinate all follow-up action.

ii. The Standing Committee will consider in detail, requests for financial assistance against specific requirements. In doing so, the Standing Committee will be guided by the following points:

   i. The importance of the event.
   ii. Profile of the concerned sports discipline in Kerala
   iii. Total budget of the event including earnings
   iv. Extent to which the championship is compatible with the objectives stated in Kerala Sports Act 2000 and its Rules.
   v. Scope of TV Coverage and hence Sponsorship.

iii. The Council also recognizes the vital role of reputed sports promoters in assisting State Sports Associations in hosting and conducting such competitions, especially as bigger and more prestigious competitions are expected to be allotted to our State in the years to come.

iv. The Council also recognizes the crucial importance of commercial TV coverage, both as a source of income for the Organisers, and also as a means to spread the popularity of a Sports Discipline, and will
therefore, pursue all related matters with the concerned Department of Government as well as all private channels of visual media.

CHAPTER –XI

34. (A) Sports Excellence Scheme

Kerala State Sports Council intends to provide financial/technical assistance to State Sports Associations affiliated to Kerala State Sports Council and National Sports Federations recognised by the Union Sports Ministry to nurture talented Sub Junior and Junior players with the intention to achieve medals at National/International Competitions.

The State Sports Associations having more number of individual medals and figuring in Grade A of the Council will be given preference for considering under this scheme. State Association should therefore submit a detailed short/long term action plan under the Sports Excellence Scheme for due consideration of the Council.

Under this scheme State Sports Associations are eligible for financial and technical assistance for the following programme.

a) Advanced training programme to Sub Junior/Junior players performing well in the State Championships and likely to excel at National/International Competitions.

b) Imparting advanced training to talented Sub Junior/Junior players under reputed National/International Coach or in reputed training centres in India and abroad

c) Availing the services of a reputed foreign Coach to train selected talented players in the State.

d) Participation of selected talented players under the Sports Excellence Scheme in various international competitions for international exposure.

(B) Long Term Development Plans

a) All State Sports Associations shall prepare and submit to the Council a detailed Long Term Development Plan (LTDP) based on a two years cycle indicating the proposed development activities of the Association and the calendar of the training and sports events.
b) These plans are to cover all aspects of the sports, and will be expected to incorporate detailed plans covering the following specific aspects.

i. Adoption of latest techniques by Sportspersons.
ii. Coaching
iii. Officiating
iv. Development of Clubs
v. Domestic competition schedule
vi. Participation in National Competitions
vii. Hosting of major events
viii. Financial Management
ix. Promotion of the Discipline
x. Facilities and Equipment
xi. Special Projects

c) The structure of the plan will include the following

i. A statement of specific and measurable objective against each of the items mentioned above.
ii. A statement of the long term perspective for the sport.
iii. A special two year plan for the years 2013-14 and 2014-2015 with a plan cycle of two years further.
iv. A detailed annual plan for this calendar year
v. A detailed financial statement of the cost involved and the projected income.

d) As most of the State Sports Associations may require expert assistance to prepare detailed plans and also to follow up in implementation, the Association may consider either appointing a committee of technical experts or a qualified professional for this work. The term of appointment of the technical committee or the professional, as the case may be, should correspond with the plan cycle of two years.

35. **Monitoring the Plans**

a) The plans as drawn up by the State Sports Associations will be discussed in the joint meeting of the office bearers of the Association, and the Council and an agreed programme will be finalised and concluded. This programme will include the following commitments.
i. The concerned State Sports Association will implement the provisions of the LTDP and achieve the targets as set.

ii. That the Council will commit its share of financial assistance.

iii. That the Council will make its facilities available according to the schedule approved.

b) A committee consisting of representatives of the State Sports Association and the Council will review the progress made against the targets set every half year at least and will suggest corrective steps to be taken by the Association and the Council. Corrective measures as agreed upon will be taken immediately by the concerned Association and the Council.

c) In formulating and implementing the LTDP, the State Sports Association should also give due consideration to the following issues.

i. Democratic and healthy management practices, which provide for greater accountability and transparency.

ii. Proper accounting procedure at all levels

iii. Proper functioning of all affiliated units.

iv. Organisation of tournaments and competitions at all levels.

v. Measures to broad base and popularise the concerned sports discipline through clubs, tournaments/competitions and creation of infrastructure.

vi. Introduction of an impartial machinery for the redressal of grievances of sportspersons.
36. **Welfare of sportspersons.**

a) Kerala State Sports Council recognises that all the measures contained in these Regulations, though they may pertain to plans and programmes of State Sports Associations are essentially meant to provide the right sort of environment on which a sportsperson is able to perform in his/her maximum capability. Hence an essential feature of the provision included in the Grant-In-Aid Regulations will relate to the protection of the interests of the sportspersons and their welfare. The impartial redressal of the grievances of the sportspersons quickly is one of the prime motive of the Council.

b) The major issues involved in this connection have been identified as follows.

i. Introduction of transparent selection procedures at all levels. Where possible and practical, State Sports Association will be required to introduce seeding and ranking systems which will provide an automatic and transparent system of selection. In all cases selection procedures as laid down in Chapter IX shall invariably be followed.

ii. Each State Sports Association will be required to introduce a machinery for the redressal of grievances of sportspersons speedily. Appeal and its procedures are therefore be codified and circulated.

iii. State Sports Associations are required to evolve a system by which sportspersons on the verge of retirement may opt for any specialised training required to become Coaches, Referees, Umpires, Technical Officials etc. as the case may be.

37. **Dope test**

a) It is believed that sports is an ethical pursuit. It does not include acts of violence, cheating, drug abuse or any other form of exploitation in an effort to win. When elements of such as these are introduced, the true competitive spirit is lost, and there remains no purpose of sports.
b) Doping is the deliberate or inadvertent use by sportspersons of a substance or method banned by World Anti Doping Agency (WADA) and National Anti Doping Agency (NADA). Doping is prohibited because its presence undermines the fundamental joy of sports, collective pursuit of human and sporting excellence. It gives an unfair advantage to the sportsperson using the banned substance or method against their competitors. Besides this, doping has adverse effects on the health of the sportspersons.

c) It is therefore decided that all State Sports Associations shall abide and harmonise the dope related regulations in tune with the World Anti Doping Code and the Rules and Regulations framed by the WADA/NADA from time to time. The Council shall have the right to collect blood/urine samples of sportspersons and refer the same for examination by accredited labs in random as an effective measure to curb the menace of doping. The State Sports Associations shall therefore assist the Council to conduct dope tests on sportspersons during in-competition and out-of-competition and also during training.

The State Sports Associations are required to educate sportspersons, coaches and other supporting personnel about the harmful effects of dope. They are also bound to conduct workshops, seminars and other activities for educating sportspersons, coaches and supporting personnel. The office bearers of State Sports Associations shall invariably participate in national meetings.

d) Workshops and seminars organised by competent authorities in the subjects of anti-doping. They will also be actively involved in disseminating information regarding prohibited substances and methods, and their side effects on the health of sportspersons.

e) The State Sports Associations shall also organise lectures, seminars, workshops, publish and distribute booklets and pamphlets for creating awareness amongst the sportspersons, coaches, doctors, and sports administrators.
38. **GENERAL**

Not withstanding anything contained in these Regulations, the Kerala State Sports Council or the Standing Committee may, if it considers necessary in the interests of sports take any decision and implement the same dispensing with any of the provisions contained in these Regulations and subject to such conditions, in consultation with Government if any, as it may impose.
